

## WHITE SPIRIT GRADES FROM MULTISOL

White spirit, or Stoddard solvent as it was originally known, still remains an old and trusted favourite. It is used traditionally in decorative gloss paints, lacquers, varnishes, and is also used in alkyd resin production. Multisol offers a medium and higher flash product, both of which have a more agreeable odour, than that found in many grades available on the market.

	White Spirit 100	White Spirit 140
Initial Boiling Point (°C)	156	184
50% (°C)	172	209
Dry Point (°C)	191	216
Flash Point (°C)	41	64
Aromatic Content (% <sup>m</sup> /I <sub>m</sub> )	20	23
Colour (Saybolt)	+30	+30
Sulphur Content (mg/kg)	<1	<1
